

FOURTEEN AMERICANS REPORTED MISSING IN BIG FIRE AT SMYRNA

State Department is So Advised by Cable-gram from Rear Admiral Bristol at Constantinople—All Are Naturalized Citizens—Said to be 300,000 Refugees in Smyrna

(By The Associated Press)
WASHINGTON, Sept. 14.—Fourteen Americans are missing in the fire swept sections of the city of Smyrna, the state department was advised tonight in a cablegram from Rear-Admiral Bristol, acting American commissioner at Constantinople.
Admiral Bristol said his information came from Captain Arthur J. Hepburn, chief of staff of the American destroyer fleet at Smyrna, who reported that the fire, starting about 1 o'clock Wednesday afternoon in the Armenian quarter, had practically obliterated the entire European quarter of the city and still was raging.
The missing Americans were all naturalized citizens, he dispatch said, adding that all native Americans listed with the authorities had been accounted for.
All warships of the various powers in the port of Smyrna are crowded with refugees, Captain Hepburn reported, and ships were constantly leaving for nearby ports loaded with fugitives.

IMPEACHMENT OF OFFICIALS IS LABOR'S AIM

Plan to Impeach Wilkerson and Daugherty for Injunction

(By The Associated Press)
ATLANTIC CITY, N. J., Sept. 14.—The executive council of the American Federation of Labor today formally inaugurated plans for impeachment of Attorney General Daugherty and Federal Judge Wilkerson in connection with the Chicago injunction proceedings and for bringing on this unconstitutional conduct of the attorney general and Judge Wilkerson into every congressional election.
A statement of the council's action dictated by Samuel Gompers, president of the federation said:
"The council today opened its campaign against all who prove untrue to the people's constitutional rights and who use their positions of public trust to promote purposes foreign to and in conflict with the legislative function delegated to men in representative capacities."
"Every possible effort will be made to arouse the people of America to the necessity that government by injunction must stop," Mr. Gompers' statement continued, "and that constitutional law must govern if we are to perpetuate our nation, as a government of the people."
Steps already have been taken to inaugurate impeachment proceedings in the house of representatives, it was announced by Arthur W. Well, president of the American Federation of Labor and a member of the executive council.

WABASH NOT PARTY TO STRIKE AGREEMENT

(By The Associated Press)
DECATUR, Ill., Sept. 14.—The Wabash is not a party to the proposed new agreement and will not make any settlement that is not satisfactory to it, President E. Taussig of the Wabash told the Decatur Herald today.
"We are today handling a very heavy traffic. We have made satisfactory arrangements for repairs to equipment and under the conditions we see no necessity for making a settlement which does not fully protect the men remained as well as the serving new men who have been service with the company," he also permit us to make such other adjustments as we think necessary under existing conditions."

STATE PLANS FOR ESCAPE

St. Peter, Minn., Sept. 14.—An attempted escape of two prisoners in the criminal ward at the state insane hospital here today was frustrated after they had dragged one attendant into insensibility and compelled five others to see the bars of a window.

MEADOW BROOK FOUR DEFEATS FLAMINGOS

Philadelphia, Sept. 14.—Play-true to their usual high standard of form, the Meadow Brook Four led by Captain Deveraux Milburn today defeated the Flamingo polo team by 15 goals to 13.

GOVERNMENT IS SPEEDING CASE IN INJUNCTION

Endeavoring to Complete Evidence on Bill by Saturday Noon

(By The Associated Press)
CHICAGO, Sept. 14.—The government today speeded up its case against the striking rail-crafts in an effort to complete the evidence in support of Attorney General Daugherty's injunction bill by Saturday noon. While two assistant attorney generals and Blackburn Esterline, assistant to the solicitor general, worked in relays regarding additional affidavits of violence during the progress of the strike, the defense announced it would seek to show the railroad executives were in a conspiracy to force a strike in an effort to wreck the unions.
"The government has sought to show presumption of a conspiracy among the shippers to carry out acts of violence," attorneys for the defense said. "We will show a strong presumption that certain rail executives were in conspiracy to destroy the unions."
"We will show they first sought to bring on a strike and then did everything in their power to prevent peace."
Evidence which the unions could not produce heretofore because it might hurt their peace negotiations, that Daniel Willard and other rail presidents can now be brought forward it was said. Permission was unofficially given the unions today to stage tag days in Chicago and other cities to raise funds for the relief of families of strikers. Railway union officials raised the question of whether such tag campaigns would violate the restraining order. Judge James H. Wilkerson said he knew of nothing in the record which would prevent tag fund campaigns and the government's attorneys assured the defense attorneys they had the government's permission to go ahead.
Approximately 200 more affidavits from non-union men and others who have been assaulted and intimidated during the course of the strike were placed in the record today.

APPLY FOR JUDICIAL SETTLEMENT OF ESTATE

(By The Associated Press)
NEW YORK, Sept. 14.—Application for judicial settlement of the accounts of the late Dan R. Hanna, Cleveland publisher, as guardian of his daughter, Elizabeth Gordon Hanna, was made today to Surrogate's court thru counsel for Mark A. Hanna and Dan R. Hanna, Jr., of Cleveland, executives of the estate. The petition states that Russian saboteurs valued at \$34,000 and diamonds and jewelry worth \$72,685, were left Miss Hanna by the will of her mother, Elizabeth Gordon Pelton, a former wife of Mr. Hanna. The saboteurs and jewelry the petition says, have been turned over since her father's death to the girl's present guardian, Mark A. Hanna, of Cleveland and Ruth McCormack of Chicago.

CONCERN EXPRESSED AT CUBAN OPPOSITION

(By The Associated Press)
WASHINGTON, Sept. 14.—The state department issued a statement "a great deal of concern" at the opposition in the Cuban congress to the reform program of the Cuban government and to the measures which are declared to be "essential to Cuban prosperity."
Confidence that satisfactory adjustments will be reached is asserted together with a statement of the complete support by the state department of Major General Crowder "in his difficult mission" in Cuba and the method of reform suggested by him. The statement points out that lacking the suggested legislative reforms a serious situation would otherwise inevitably arise in Cuba.

REVENUES WILL BE ABOUT \$270,000,000

Washington, Sept. 14.—Revenues receivable by the government tomorrow as the third installment of 1922 income and profits taxes will amount to about \$270,000,000 it was estimated tonight by the treasury.
Receipts from this source in March aggregated \$393,000,000 and in June \$295,000,000, while the collections for December 15 are expected to reach \$250,000,000 making the total revenues from income and profits taxes for 1922 about \$1,195,000,000.

WILLIAMS HEADS NAVAL WAR COLLEGE

(By The Associated Press)
WASHINGTON, Sept. 14.—Rear-Admiral C. S. Williams will be named president of the Naval War College at Newport, R. I., to succeed Rear-Admiral William S. Sims, when he retires October 15. Secretary Denby announced today.
Rear-Admiral Williams is at present head of the war plans section of naval operations. Before taking his present assignment he was vice admiral assigned to the Pacific fleet.

SWEDISH BAPTISTS HAVE 345 CHURCHES

Chicago, Sept. 14.—As a result of the work of its early pioneers the Swedish Baptists of America have now some 345 churches with a combined membership of about \$2,000 and a church property valued at nearly \$4,000,000. J. O. Becklund of Chicago, financial secretary of the Swedish Baptist general conference told the conference at its session here today.

NEGOTIATIONS ARE UNDERWAY WITH RAILROADS

Expect Men to Return to Work on Some of Them Today

(By The Associated Press)
CHICAGO, Sept. 14.—With negotiations reported underway with several railroads in an effort to obtain immediate ratification of the peace agreement adopted by the general policy committee of the striking shop crafts yesterday, the hope was expressed by union leaders tonight that the men would be back at work at several points tomorrow.
The Chicago & Northwestern led the way in the parleys which W. H. Finley, president of the road said would be a "most formal" one. He added that he expected his men to begin to return to work by tomorrow. Next in line was the Chicago, Milwaukee & St. Paul, B. B. Greer, vice-president declaring that it was hoped that some 15,000 men would be back at their jobs by tomorrow night over the entire system.
In the case of the Rock Island, a committee of shopmen, called upon J. E. Gorman, president of the road in an effort to persuade him from the stand he had announced earlier in the day that it was unnecessary for his road to negotiate as it had seventy-five percent of its usual shop forces at work. The conference continued for four and a half hours, at the end of which time, Mr. Gorman told The Associated Press:
"I told them I could not accept. I think that covers it and there is nothing more that can be said at this time."
Meanwhile the executive council of the shop crafts met at a North Side Hotel to make arrangements for the separate negotiations. None of the leaders would discuss the situation in detail the general opinion seeming to be voiced by B. M. Jewell, strike leader who said:
"There's been too much publicity already. We won't have anything more to say for several days."

FRAME MEASURES TO LIMIT COAL PRICES

(By The Associated Press)
WASHINGTON, Sept. 14.—Nearly half a hundred representatives of business, industry, railroads, public utilities and the government are to meet at the commerce department tomorrow to frame measures for voluntary action to limit coal prices and effect the most advantageous distribution of fuel supplies.
Call for the conference was issued by the president's fuel committee with a view to finding means for returning the coal situation to normal as rapidly as possible.
Need for lower coal prices was seen today by Secretary Hoover, who declared that "the present average price of coal is an outrage on the public."
Both the British ambassador and John W. Davis, former American ambassador to Great Britain who was another speaker referred in their addresses to the recent interview attributed to Rudyard Kipling, belittling America's part in the war. Both speakers expressed satisfaction that Mr. Kipling had denied the words attributed to him.
Ambassador Geddes warned his hearers to be on their guard against those who sought to sow seeds of discord.

PENNSYLVANIA R. R. MAKES NEW RECORD

(By The Associated Press)
CHICAGO, Sept. 14.—A new daily record of 15,897 cars moved was established on Sept. 6 by the Northwestern region of the Pennsylvania railroad with prospects that the month will make a record, the Pennsylvania News will say tomorrow.
Indicating the heavy freight traffic the perishable freight schedule shows that in August 105 sections averaging better than 45 cars each were operated between Chicago and the Atlantic seaboard. The livestock schedule from Chicago was also heavy.

WOMAN IS HELD FOR MURDER

Chicago, Sept. 14.—Mrs. Maud Shirk was held on a charge of murder today after a coroner's jury had returned the verdict after thirty minutes deliberation. Mrs. Shirk is alleged to shot and killed Felix Rachbauer, shot owner with Mrs. Pearl M. Stein of a road house that she killed Rachbauer in defense of Mrs. Stein, her sister.

DWARF DROPS DEAD

Oshkosh, Wis., Sept. 14.—While entering the Northern Hospital for the Insane here today, Pieter Hendrickse, 57, a dwarf from Rhetogau county, died suddenly of heart failure.

TROUBLE EXPECTED BY COAL COMPANY AT LESTER MINE

This is Brought at Hearing for Compensation Before Commission

(By The Associated Press)
CHICAGO, Sept. 14.—That the Southern Coal company expected trouble at Herrin from the striking miners and to meet such an eventuality, purchased fire arms in Chicago, was a point the fifteen applicants for compensation before the Illinois Industrial commission attempted to prove when hearings were resumed today.
Jacob S. Cook, attorney for the applicants had Lieutenant William E. Kennedy of detective headquarters on the stand in an effort to prove this.
Kennedy, it is said, accompanied C. K. McDowell, late vice president of the company while the latter purchased rifles and ammunition in this city, later shipping them to Herrin. Earlier a former guard at Herrin named Finley had testified to the rifles being received at the mining town.
Thru their efforts to establish this point the plaintiffs are endeavoring to show the Southern Illinois Coal company should be held responsible for the injuries received by the men on June 22, when the killing took place.

TWO BROTHERHOODS AND RAILROADS ARE NEAR TO AGREEMENT

Continued Peace Seems Assured if Arrangements Go Thru

(By The Associated Press)
NEW YORK, Sept. 14.—Continued peace between the railroads and at least two of the big four brotherhoods which man their trains seemed in sure prospect tonight when it was announced that the New York Central Lines had practically agreed to renew their present arrangements with the trainmen and conductors.
This announcement coming from W. G. Lee, president of the Brotherhood of Railroad Trainmen was followed by the report that the Pennsylvania, Erie, Lackawanna and other eastern trunk lines also were ready to continue the wage scales, working conditions and the rules under which the trainmen and conductors are now employed.
The agreement in prospect will automatically remove from the United States labor board the task of deciding upon the pay and working conditions for trainmen.

GEDDES PRAISES AMERICAN TROOPS

(By The Associated Press)
NEW YORK, Sept. 14.—Sir Auckland Geddes, British ambassador to the United States speaking tonight at a dinner given to visiting delegates to the National peace conference, said that America played a great role in ending the world war and that any one who said otherwise was one of three things, ignorant, malicious or just a fool.
Both the British ambassador and John W. Davis, former American ambassador to Great Britain who was another speaker referred in their addresses to the recent interview attributed to Rudyard Kipling, belittling America's part in the war. Both speakers expressed satisfaction that Mr. Kipling had denied the words attributed to him.
Ambassador Geddes warned his hearers to be on their guard against those who sought to sow seeds of discord.

RESOLVES TO MARCH ON CONSTANTINOPLE

London, Sept. 14.—Mustapha Kemal Pasha has resolved to march his army on Constantinople unless the powers hand over the city to the Turks, according to a statement he made to the Daily Mail correspondent at Smyrna. He also reiterated that his peace terms were based on the national pact.

UNIVERSITY HEAD DISMISSED AT MANILA

Manila, Sept. 14.—Professor Austin Craig, head of the department of history of the University of the Philippines today was dismissed by the board of regents on a charge of conduct prejudicial to the interests of the university. Craig is said to have criticized the board of regents and President Guy Potter in a public statement.

GIVES WAGE INCREASE

Houghton, Mich., Sept. 14.—A wage increase of fifteen per cent effective tomorrow was announced tonight by the Copper Range Consolidated. It affects all employees of the Champion, Baltic and Tri-Mountain Stamp Mills.

CRISIS IS NEAR IN REPARATIONS QUESTION BELIEF

Germany's Refusal to Demands Brings an Acute Situation

(By The Associated Press)
PARIS, Sept. 14.—The newly developed crisis in the reparations question became so acute tonight upon receipt of Berlin advices that Germany had categorically refused to give up the 100,000,000 gold marks demanded by Belgium as a guarantee of the six months note issue on account of the reparations, and the members of the commission decided the situation has gone beyond their control and requires the immediate attention of the allied premiers.
Sir John Bradbury, British member of the committee is proceeding to London to lay the matter in detail before Premier Lloyd George, while M. Poincare has assumed command of the French and Belgian premiers also are handling the situation for their countries.
Belgium's request for the deposit of gold not later than tomorrow instead of being merely a diplomatic maneuver to permit further discussion as at first indicated now appears to be a stern demand with the full backing of the French and Belgian governments.
An official communique issued by the French ministry of foreign affairs respecting the meeting between M. Poincare and M. Dubois of the reparations commission at Rambouillet, says:
"Gives Definite Instructions"
"The cabinet council, thru the premier, gave definite instructions to M. Dubois concerning the French attitude in the event of Germany's failure to comply with the reparations commission's decision of August 7."
M. Dubois who is president of the commission will exercise his right to cast the deciding vote in the event that Great Britain and Italy oppose such declaration, as is probable. The members of the cabinet took a very critical view of the situation and gave explicit instructions to M. Dubois to demand action by the commission unless the gold is deposited.
The refusal of Germany to pay the £1,500,000 due tomorrow as part payment of her private pre-war debts to allied nations, has served to stiffen the attitude of the cabinet. Her refusal to pay has caused deep resentment in the French cabinet, which feels that Germany could easily meet the payments.
Despite the very serious turn of events, the German delegation in Paris remains calm and optimistic.

CONSIDERS MERGER OF PACKING COMPANIES

(By The Associated Press)
CHICAGO, Sept. 14.—A merger of meat packing companies, involving two and possibly four of the "big five" packers, is being considered, according to a story printed by the Chicago Herald-Examiner. The companies mentioned in this connection were Armour & Co., Wilson & Co., Morris & Co., and the Cudahy Packing corporation. If all of the four concerns were merged it was said the deal would involve the creation of a new corporation a \$536,000,000 concern headed by Armour & Co. Doubt was expressed however, as to whether Morris and Cudahy would join. It was said that both J. Ogden Armour and Thomas E. Wilson were now in the east in connection with the proposed deal.
Two weeks ago a story was printed regarding a merger of the Armour and Wilson interests, but it was strongly denied at that time.

ELEVATED LINES TO REORGANIZE

Chicago, Sept. 14.—A reorganization and consolidation of the elevated lines of this city was today authorized by the Illinois Commerce Commission. A bond issue of \$39,000,000 will be prepared immediately it was announced. The lines affected are: Metropolitan Elevated company; Northwestern Elevated company; South Side Rapid Transit company and the Oak Park Line, which has been in receiver ship since 1911.

POLITICAL PARTIES MAY SELECT METHOD

Jefferson City, Mo., Sept. 14.—Political parties are given power to determine whether they shall make nominations by primary elections or delegate convention under a provision adopted today by the state constitutional convention. The vote was 35 to 31 and followed a week of debate.

TWO HUNDRED MEN TO WORK

Madison, Wis., Sept. 14.—Two hundred railway shopmen returned to work here tonight following official notice from their union officials. They will resume operations on a three shift plan.

HUMAN SKELETONS USED BY DOCTOR IN INSURANCE TRIAL

Were Barred by Court Until Such Time as They Were Needed

(By The Associated Press)
SUPERIOR, Wis., Sept. 14.—Two human skeletons brought here from the University of Wisconsin for use as exhibits in the Sallstad trial were barred from the court room today by Federal Judge C. Z. Luse, "until it became evident that they were needed."
Counsel for Mrs. Leona Sallstad-Richardson, widow of Edward J. Sallstad, missing Eau Claire, Wis., manufacturer who seeks to collect a \$10,000 insurance policy from the New York Life Insurance company on the presumption that Sallstad died in a cabin fire at Lake Nebagamon, Wis., on August 26, 1920 had asked the court if there would be any objection to bringing the skeletons into court in connection with the testimony of Dr. Bunting, University of Wisconsin pathologist.
Dr. Bunting testified that he examined what was shipped to him as the "remains of Edward J. Sallstad" and found that the bones were those of a male human being and that the flesh attached to the bones had not been embalmed. The defense contends that Sallstad after disintering a human body from a ceme-tery placed it in the Lake Nebagamon cottage, fired the building and eloped with Miss Dorothy Anderson, his private secretary.

SETTLEMENT FAILS ON FOUR ROADS

(By The Associated Press)
ST. PAUL, Sept. 14.—Settlement of the railway shop crafts' strike on four additional north-western roads failed today when a conference between officials of the Northern, Minneapolis, St. Paul and Duluth, St. Louis and the Minneapolis and St. Louis systems and R. A. Henning, chairman of the federated shop crafts of the northwest broke up late today. In a statement issued by the Northern Pacific it was said that the Northwestern lines cannot find places for all the men now on strike and that the agreement upon the basis adopted yesterday in Chicago was impossible. Each company would be willing to set to work as many of the men now on strike as it is possible to employ, the statement continued but the lines will protect at all cost the loyal employees who remained at work and the new men employed. The conference was held in the offices of the Northern Pacific.

NORTHWESTERN CUTS "PROC" NIGHT

(By The Associated Press)
CHICAGO, Sept. 14.—Students and faculty of Northwestern University united yesterday in deciding to cut "proc" night, due Wednesday by custom of time immemorial, shall not be held and shall be banished forever. It's the annual scrap to a finish between Freshmen and Sophomores.
President Walter Dill Scott gave as the reason for the decision mystery surrounding the disappearance of Leighton Mount, a student, during "proc" night last year.
So "proc" night with its slugging matches and its bruised bodies goes out and in its place comes a comparatively sedate push ball game between the two classes on Nov. 11.

BOY SCOUTS OF THREE NATIONS DEMONSTRATE

Blue Ridge, N. C., Sept. 14.—Boy Scout leaders of the United States, Great Britain and France joined in a national and international demonstration here today designed to show that there are no racial or national barriers in the boy scout movement.
Captain Frank Gidney, representing England, J. G. Des Jarins, France; John Stiles, Canada and James E. West, chief scout executive of the boy scouts of America marched thru the auditorium where the boy scout leaders conference is being held here amid cheers that lasted five minutes.

COUNTY FAIR PUTS PRISONERS IN BACKGROUND

Marion, Ill., Sept. 14.—The 25 prisoners held in the county jail here on indictments charging murder in connection with the Herrin mine strike fatalities of June 21 and 22 last, were virtually forgotten today because of the big day of the annual fair. Many of the prisoners, it was said, missed this event for the first time in years.
The Williamson county fair is 66 years old and is said to be the largest in the whole state.

PEORIA WOMAN DIES IN DENVER

Peoria, Ill., Sept. 14.—Mrs. William Hawley Smith, well known artist, died today in Denver, according to a message received by relatives here. She was the wife of the late William Hawley Smith, well known author.

WILL TAKE SIX MONTHS TO GET BUSINESS BACK

Officials Warn Country Must Recover from Upheaval

(By The Associated Press)
WASHINGTON, Sept. 14.—Warning was given by high administrative officials today that the country must recover from the aftermath of the recent industrial upheaval before economic benefits flowing from the settlement of the railroad strike can react fully upon national business conditions.
Secretary Hoover took the view that altho the country is now undoubtedly better off than it was a year ago, it will probably be six months before a high plane of industry is attained, while Secretary Mellon altho considering the business outlook very good, recognized as forestalling immediate commercial expansion the limitations imposed upon transportation facilities by car shortages and a possible inadequate labor supply.
It was expected that little time would be lost in the opening of negotiations between the roads and the unions looking to actual signature of the peace pact.
While the losses due to the coal and railroad strikes have been "considerable," Secretary Hoover said in a statement issued tonight "they are easily overestimated."
"The state of current coal mines wages lost in the five months of strike is not a correct basis of the estimation of total loss," he said, "because over a period of eighteen months we will probably consume, approximately the same amount of coal. In other words, the miners will work more days in the week and produce more coal in the next six or eight months than they would have produced if there had been no strike and thus the wage roll of the next six or eight months will be larger and will, in considerable degree compensate the loss during this suspension."
"The real loss would be more in the loss of productivity in industries. If all our industries can be kept in motion, the loss will be much less from the coal strike than is currently estimated."

Farmer Meeting Greatest Loss

"The greatest loss today is the one being met by the farmer as a result of the railway strike. The export of farm produce has been seriously interfered with. Prices are therefore unduly depressed in the agricultural regions and the farmer is suffering grievously."
"The inability to transport manufactured products will create some degree of loss."
"There are other losses that must be counted into the national balance sheet, such as the damage to the railways, the extra charges which they have been put to, the cost of keeping the mines and manufacturing plants during the period of suspension, and a hundred other items that are of importance. In the broad view however, if we can get back to business, if we can secure a resumption of transportation and rapid distribution of coal and agricultural produce we will not have received such an economic wound as cannot be very quickly recovered from. We will probably not be on such a high plane of business prosperity during the next six months as we would have been had the strikes not taken place, but we will undoubtedly be on a much higher and more comfortable plane than that of last year."

SEEK SPIRITUAL AID FOR HICCOUGH VICTIM

Louisville, Ky., Sept. 14.—Special prayer services were held tonight at the Church of Our God to seek spiritual aid for Mrs. Virginia Tatum, 25 years old, who has been suffering from hiccoughs practically continuously for nine days. The hiccoughs come with every breath and during her afflictions Mrs. Tatum has been able to get only a few hours sleep, which has been induced by opiates.

A THOUGHT

Love never faileth.—I Corinthians 13:8.
I'm proof against that word "failure." I've seen behind it. The only failure a man ought to fear is failure in cleaving to the purpose he sees to be best.—George Eliot.

It is no new thing to say that the thing the times need is prevalence of the Golden Rule. The difficulty is to get people generally to practice that rule of doing as they would be done by.

Judge Wolfe of Adams county has handed down a finding that women are not entitled to serve on juries.

Now that women have full rights of suffrage some of them cannot understand why they are not entitled to serve as jurors and so are likely to take their case to a higher court.

The rumor is of weekly occurrence that Mr. Gregory, prohibition officer for Illinois is to resign and deny comes from that official just as regularly. Perhaps it is some of the bootleggers that start the resignation story for Mr. Gregory has earnestly sought to bring to pass enforcement of the prohibition acts insofar as the forces available make it possible.

After all the attacks that have been made Senator Lodge of Massachusetts has reason to be proud of that primary majority of 30,000. Perhaps Senator Lodge is sometimes entitled to criticism

because of his stand-pat tendencies, but certainly he ranks among the great minds of the country. He is a seasoned statesman with a valuable knowledge of national and international affairs.

When the state school for the deaf begins work of the year next Monday fifty-three instructors will be busy. That statement calls attention to the importance of the state institutions to Jacksonville in a business way. In addition to the fifty-three teachers there are officers and employees on the state payroll, and aside from its other good influences in a community the school for the deaf is an important business asset of Jacksonville.

There was plenty of enthusiasm shown at the Meredosa meeting last night when an organization was effected for promoting a hard road from Jacksonville to Mount Sterling. There is no doubt but that such an organization maintained through coming months will go a long way toward accomplishing its purpose. Past events have shown that hard roads are likely to be built through communities where real enthusiasm is shown.

DRESSING WOMEN.

(N. A. E.)

Paul Poirot, famous creator of styles, says Parisian fashions will be driven out of America by the new tariff with its 90 per cent duty on imported feminine garments. Poirot predicts that prohibition of beautiful clothes is booked to follow prohibition of liquor.

This, of course, is Big Talk. A tariff might stop the importation of finished garments. But nothing can stop the spread and copying of styles. That is, nothing except common sense. And when it comes to dressing the common sense of American women is on the job more than ever before.

They will think twice before surrendering comfort, despite Paris. The tariff, fumes Poirot, "may even keep away the trailing skirts of the Italian Renaissance which are the approaching Paris fashion."

If the tariff can prevent a re-

BERTON BRALEY'S DAILY POEM

A Bivalvular Ode

BY BERTON BRALEY

THE oyster is a merry bird,
His ways of living are absurd;
It opens up its shell full wide
And lets its dinner drift inside;
(Some like it raw—I like it fried.)

THE oyster is a funny beast,
With no ambition, not the least.
It sits and waits its whole life through
For any fate that may ensue,
(I like it in a cocktail, too.)

THE oyster is the quaintest fish,
It hasn't any tail to swish,
It doesn't swim, but stays and stays,
Immobile during all its days,
(I like it roasted various ways.)

THE oyster is a curious reptile,
Close-mouthed, its secrets are kept till
An oyster-man, with manners rude,
Opens it up for human food;
(I like it raw, baked, fried or stewed,
In fact, these bright brisk days of fall,
I like it any way at all!)

turn of sidewalk sweeping, germ-collecting skirts, it should be given a rising vote of thanks, especially by babies crawling about their mothers' feet. A trailing skirt can carry more disease than an army of rats.

Nine months ago the matriarchs employed by M. Poirot, paraded in Parisian hoop-skirts, trying to resurrect grandmas' styles.

You haven't seen any hoop-skirts lately, though, have you? The bet overlooked by Poirot was that the hoop-skirt is a physical impossibility in modern America. It couldn't be gotten through the door of the average apartment, let alone a street car, auto or theater seat.

The only possible way in which a hoop-skirt could be used now would be in a farm-field or for transporting a few cases of liquor under cover.

sure. The return to simplicity is hopeful, whatever may be its details. The earliest type of city government in the United States was that of a single body—the board of mayor, aldermen and assistants. Power and responsibility were concentrated, and it was not until half a century after the Revolution that municipal governments began to become increasingly complex.

WOODSON LEGION BURGEO SUCCESS

The first annual burgoo and picnic of the Raymond Baxter post American Legion at Woodson was held Thursday afternoon and evening in the basement of the Christian church. The affair was largely attended and pronounced a success in every way.

The Legion disposed of 150 gallons of soup, twenty-five gallons of ice cream, and a great number of hamburger and weller sandwiches.
Members of the Legion recognize the success of the affair was in a large measure due to the assistance of the people of the Woodson community and ask that the Journal express for them recognition and thanks to the people of the community in general, to those who donated supplies for the soup, and especially to the management of the Christian church for the use of the basement and also the Woodson band which furnished the music and to the people who arranged and waited on the tables.

CELEBRATION BY CHURCH PLANNED AT ARENZVILLE

Lutherans On Sunday Will Observe Golden Anniversary of Organization.

Arenzville, Sept. 14.—On Sunday, Sept. 17th, the Lutheran Trinity congregational church of Arenzville will celebrate its Annual Mission Festival and in connection with this the Golden Anniversary of the founding of the church will also be celebrated at the same time. It has been the object of the committee in charge of arrangements to secure former ministers of this congregation to deliver the sermons for this occasion, and it will be seen by the program given later that this has been accomplished to a certain extent.

In 1872 a number of Lutherans joined together at Arenzville and erected a small chapel. Pastor Druegemueller was then called to serve this parish, remaining at this place for over twenty years. In 1910 the small chapel was sold and a large and beautiful brick structure was erected. Rev. Eberhardt, the successor of Pastor Druegemueller, served in Arenzville for eighteen years. When he left J. F. Hansen of Concordia seminary, Springfield was called to assist until the congregation could find a man to be their spiritual advisor. Rev. E. F. Tonn was called from Kansas. He has been here for about eight years and is still with the congregation. Rev. Hansen, after finishing his studies, was sent to Australia to do missionary work and he is still engaged in the same work.

But besides building a public house of worship, the congregation also placed a school beside the church in which their children could receive courses in religion as well as the regular course of study they would receive in the public schools. Rev. Druegemueller and Rev. Eberhardt had charge of the school while they served the congregation. Later the members decided that on ac-

count of the increasing number of children in the school and because of the large amount of work left for the pastor, it would be advisable to secure a parochial school teacher. Accordingly A. G. Frinke, who is now in Collinsville, was called to act as the first teacher. He was succeeded by Miss Lydia Koehne of Beardstown, who taught one year. Miss Frida Jass of Peoria was next employed for two years. In 1920 the congregation succeeded in calling William Buhrmester, one of the graduates of River Forest Normal, who is at the present time teaching the parochial school.

The following program is announced for Sunday:

10:00 a. m. German service in which Rev. Fred Wessler of Milbank, North Dakota, will preach a missionary sermon.

2:00 p. m. There will be a German address by Rev. Eberhardt followed by the choral selection, "Halleluiga." An English address will then be given by Professor Nietzel of Springfield. Next will follow a short history of the church by Rev. E. F. Tonn.

At 7:00 p. m. Rev. Kaiser of Burton will give an English discourse on missionary work.

The Ladies' Aid society will furnish regular dinner and supper in the basement of the church, to which all are welcome.

DR. HERSHEY TALKED TO KIWANIS CLUB

Health Expert Declares People Can Readily be Centenarians—Reports Made by Standing Committees.

Members of the Kiwanis club entered actively upon their fall program at the luncheon Thursday given at the Peacock Inn. The address of the meeting was given by Dr. Scott F. Hershey of Ohio, a health specialist, who believes that with proper care people can readily live to be centenarians.

President Felix E. Farrell presided and the attendance prizes were awarded to Carl Robinson and John W. Larson. B. F. Shafer as chairman of the educational committee outlined the work proposed for coming months. Wood Phillips announced plans for participation in the golf tournament to take place in Decatur next month. A report was made by Lloyd Reid as chairman of the business relations committee.

Members had the pleasure of listening to Donald Lovejoy of the voice department of Illinois Conservatory of Music who was introduced by Cole Rowe as chairman of the program committee. Mr. Lovejoy sang two solos very effectively with violin obligato by Mr. Kritch and piano accompaniment by Mr. Munger.

Dr. Hershey's theories of health and long life proved very interesting. The speaker has been a student of health matters for thirty years and is widely known as an educational lecturer specializing in physical and social values in educational work. He said in part:

"We have too much illness in this country. While we have reduced the death rate in children under two years of age, the increase in the death rate after the age of 40 years is reached, is rapid.

"I am a student of animal and bird life. In studying animals I find very little illness among the young. Little pigs, puppies and kittens, are rarely, if ever, sick. A house to house canvass in any city will show that there are many children ill, however. I can spend an hour and find a dozen children sick and never find a young animal sick. Is it possible that the human parent is less intelligent in the care of children than the animals are in the care of their young?"

"My observations and beliefs coincide with the findings of the leading scientists, biologists and physiologists of the world and have been reached after a thirty year's study of health matters.

"Why is it that so many men and women should be cut off by death right in what should be the prime of life. At the age of 40 years a man should be stronger physically and mentally than at any other time.

"There is no need of sickness during childhood or inherited deficiencies. We should live and be active up to 80 years if normal in the vital functioning of the body.

"The cause of illness is infectious bacteria. We can defeat these bacteria by continuing the condition of life and building up the functioning of the body.

"I wish that the economic output of a man could be definitely stated between the ages of 60 and 80 years. During this period or from 50 years on, a man is worth more to himself, his family and his community, than at any other. His years of experience, his advice and his balanced judgment are worth many times his accomplishments of all the rest of his life.

"I wish that you men here today would cut loose from and tell others to cut loose from the habit of patent medicines and the patronizing of fake doctors. They cause much trouble and undermine the health of many.

"Scientists through laboratory research and experiment have reached the conclusion that the vital organs of man should last 300 years. It is a fact that through right living we should easily attain the age of 110 to 125 years.

"Why a turtle lives to be 400 years old and we should be worth as much economically as is the turtle. There are turtles in captivity who are known to be 2,000 years old.

"English scientists tell us that in the early day men lived for 200 and 300 years on earth. Surely with our modern methods of medical skill, we should be able to live over a century. We should consult our family physician once or twice each year after we pass the age of fifty. If any organ is not functioning normally then cure should be taken in the diet so that the wrong can be corrected and disease prevented."

FIND IT IN BOOKS

Willie, Honore, "Judith of Hodless Valley"—This is a story of Douglas, a wild young rider of the western cow-country, in whom, somehow, unfostered and denied, has persisted his New England grandfather's passion for ruling and constructive human endeavor. He loves the girl Judith, vivid, fearless, intensely modern, a lover of dogs and horses, capable of fierce passions, scornful of every meanness, afire to every beauty. They belong to a wilderness community made up of a number of families three generations removed from New England forbears, grown callous to conventions, to morals, to ethics, to God. This is a story of their struggle to wrest from life the secret of happiness. It is as rough and clean as the wind that Judith loved to feel on the top of Fire Mesa. The author has written of the life she knows intimately, and the spirit of her book is the spirit of youth today. The drama of this boy and girl answers

the questions of all youth today as only youth itself can answer them. This is a new novel of the West as it really is today. It will be enjoyed especially by men and boys. Get it at the Public Library.

Quick, Herbert, "Vandemark's Folly"—The hero of this story is employed on a boat in the Erie Canal but starts out on a pathetic search for his mother, which quest ultimately leads him to Iowa where he meets the girl that finally becomes his wife. He in the meantime establishes himself on a farm where he is a conspicuous character praised for his good deeds and pardoned for his bad ones. It is a story filled with exciting adventures, living characters, written in splendid style and with much skill. The author has caught the rapidly changing civilization and has made an imperishable record of it. Every chapter of his book is full of astounding American life, full of real men and women. The story is rich in incident and excellently written and for those unfamiliar with the trials of the pioneers in the early days, it will prove not only a good novel but almost a history as well. It ranks with the great American novels depicting the pioneer life of our forefathers and will be enjoyed by all readers. Get it at the public library.

Bachelor Irving, "In the Days of Poor Richard"—This author wrote also "The Man of the Ages" and this newest novel will no doubt prove equally as popular as his former ones. The author has chosen for this new romance, the fight of our fathers for liberty, dramatically involved with the love of a man for a maid. This is a very human story of our struggle for independence and the part that Benjamin Franklin played in it. It is a great novel of the founding of our Republic, the great adventure of our country's history. Here is the drama of our nation's birth, and how it might never have been played, but for Franklin's unassailable integrity. This book has not appeared serially and will be enjoyed by all readers who care for an historical setting along with a clever plot and pleasant love tale. Get it at the Public Library.

Get More Eggs this Fall and Winter!

The one great mistake most poultry raisers make is in the idea that scratch feeds make eggs, and this accounts for their failure to get eggs in the winter and fall.

Scratch feeds do not make hens lay. Just so long as you make scratch feed the bulk of your hen's ration, you will fail to get eggs. Scratch feed is for the hen's bodily maintenance—to make her exercise, scratch—to satisfy her while on the roost, and not to make eggs.

The feed that will make hens lay abundantly must be a soft feed, finely ground and correctly balanced—a feed composed of materials like hens pick up in the Spring, when their egg production is highest.

FUL-O-PEP
DRY MASH
The Great Oatmeal Poultry Feed

is that kind of a feed—compounded along nature's lines—made solely to make hens lay. It is a combination of proven egg making materials with several other valuable ingredients which come as near nature's egg-making food as it is possible for expert knowledge, science and experience to produce.

To get more eggs, Feed FUL-O-PEP DRY MASH—all your hens will eat. Keep it where they can get it all the time, and feed Ful-O-Pep Scratch Feed about an hour before they go to roost—then you'll get eggs and lots of them. We guarantee it.

PREDICTS WOMAN PRESIDENT OF U. S.

(By The Associated Press)
CHICAGO, Sept. 14—"The day when a woman will be president of the United States is not far away," said Miss Jeannette Rankin, former congresswoman from Montana, in an address at Glenview today.

"Each day the woman grows more powerful in politics. Each day her vote weighs more. There are so many bureaus representing woman's organizations in Washington now that congressmen always are careful when acting on legislation that will have to do with woman."

RIDER OF R. R. RODS NOW MISSIONARY

CHICAGO. — A representative rider of the rods asked the station master of the Chicago Union station what he should do to pay for 40,000 miles of stolen rides on various railroads. The station master, J. B. Aikken, told the former tramp, Nils Hanson, to feel at ease about the matter, and the latter is now a missionary in India, according to the Pennsylvania News, house organ of the northwestern region of the Pennsylvania System.

"I like to make up with man as well as with God," Mr. Hanson wrote in confessing the rides he had taken as a tramp. At the time of this confession he was a Bible student in Chicago, and said he had "hardly enough to pay for bread and butter and a few second hand clothes."

Even before coming here (to the Bible school), he added, "I always believed in honesty, so far as stealing was concerned anyway and I thought there was nothing wrong with riding on the train if a man was able to do so. I see it differently now. I remember once I also stole some oranges in a railroad car, although I always was against anybody who tried to do anything like that."

Another time a few of us took some boards off an old car and burned them up. There might have been more instances of dishonesty when I was hungry and freezing."

Mr. Aikken replied, "I am sure that the full repentance you have made will justify you in feeling that the matter is entirely settled."

BANDITS ROB UNION OFFICE

(By The Associated Press)
CHICAGO, Sept. 14.—Two bandits held up officials of the Wood, Wire and Metal Workers Union, Local No. 74 in their headquarters and escaped with about \$900 in union dues which had been collected at a meeting just ended.

The two men lined the union officials against the wall and swept the money in the satchel and locked the door as they went out. They were joined on the street below by a bandit who mingled in the crowd.

George Briggs, head of the union examining board saved \$600 which he had hidden in his artificial leg. He arrived after the meeting ended and just before the holdup with money collected from delinquent members.

Two Days Contest Will Present Anniversary Features.

"Will I get a flag or a tombstone," that is the question that is worrying Jacksonville golfers today.

Saturday and Sunday there will be staged at Nichols Park golf course a new sort of contest in which local golf enthusiasts will have a chance to show their real worth. It will be a contest that will give rise to considerable good natured rivalry.

The tournament is to be known as the "Flag or Tombstone Contest," a flag marking the distance gained by a player in a certain number of strokes, a cold stone being the lot of the short distance players.

All golfers are invited to participate. The tournament will not be a long one so a great number can join in the fun. A committee of experts will handicap the various entrants on basis of past performances.

Tournament rules are given below:

Play is on a medal basis, the players' club handicaps usually being allowed. Each player is permitted to play the number of strokes given as

par of the course, plus his handicap. Thus where the par of the course is 72 and a player's handicap is 9, he is permitted to play 81 strokes. When he has played his 81 strokes he must place the flag which was given to him when he started, and which bears his name, where his ball lies at the end of the stroke. As may readily be seen, this will often vary and some contestants will finish their allotted number somewhere on the 16th hole, others on the 17th, and sometimes a player who has had an exceptionally good round will finish the full 18 holes and still have strokes to spare. In this case he starts again from the first tee and plays until his allotted number is used up. The winner is the one who succeeds in placing his flag the greatest distance from the start. If two players have been able to complete the full 18 holes and each has two strokes left, the one who is nearest the first hole after playing his second stroke would be the winner.

Instead of using a flag to designate the point at which a player has completed his allotted number of strokes a replica of a tombstone may be used. This may be made of cardboard and bear suitable epitaph, such as "Here Died Jim Jones on Sept. 16, 1922." Interest in this may be extended by providing each player with a blank tombstone permitting him to write his own epitaph, thereby securing many that are original and humorous.

Elijah Bacon of Murrayville, who underwent an operation at Passavant hospital Wednesday, was yesterday reported to be resting in a satisfactory manner.

WOMEN TAKE PLACE OF MEN GAMBLERS

Now Frequent Atlantic Liners "Plying Trade"—Makes Trouble as Men Won't Admit a Woman Can Outwit Them.

New York, Sept. 14.—(By The Associated Press.)—Women are replacing men gamblers aboard ocean liners.

"Little Eddie" Mallon, the watchdog of the piers, whose job it is to "spot" sea-going gamblers is authority for the statement. He says the men claim they are going straight because they have found that travelers are too careful and ship's officers too watchful.

Most of the gamblers, says Mallon, came to that conclusion just about the time a White Star captain sent a well-known gambler to the detention hospital aboard his ship following a spirited little party in the smoking room, when fists were brought into action.

But where men have dropped cards and dice, women have taken them up. The women are known to Eddie and to other detectives who help him watch the piers, but the problem is to catch them.

One big liner recently came in to port and Eddie, as usual, met it at Quarantine. He lost himself as soon as he was aboard. But by the time the liner had reached the pier, he popped into view, sore and disgusted with disappointment easy to read in his face.

"I lost 'the Duchess' again," he grumbled. His story was brief. He had received a wireless tip that there was a woman aboard, aristocratic and cultured; that she had been very sweet to several of the men passengers; that she reluctantly consented to play bridge practically every night at sea; that she had collected rather heavily at the end of each sitting.

"I talked to about five men about her, continued Eddie, and not one would complain. She was a woman, they said, and they were not willing to accuse a woman of cheating at cards. So I had to let 'the Duchess' come ashore and she has just passed her baggage. She will probably be back on the French line next week, laughing at me.

"That's the big trouble now. We could beat the men at the game, but now men passengers who have lost either don't admit a woman could outwit them, or else they won't complain. The women are getting away with it simply because they are women."

MR. FOX CLOSING SUCCESSFUL CHAUTAUQUA SEASON

Ordin Fox who has just completed a successful season as a superintendent for the Redpath Lyceum Bureau is now in Jacksonville to spend several months. Mr. Fox was superintendent for the Chicago-Gulf circuit, opening the season last February in Florida and closing in Michigan recently. That the months were busy will be known with the statement that during the season he managed chautauqua programs in 148 cities. Notwithstanding various difficulties resulting from the railroad strike not an engagement was missed. In order to accomplish this shipments were often arranged by interurban or auto truck when the use of a railroad had been intended.

The Lyceum Magazine in a recent issue presents pictures of chautauqua managers and attractions. Mr. Fox appearing in the group. The magazine in referring to the Jacksonville young man, says: "Supt. Ordin Fox, one of Redpath's effective contract managers, is a veteran of the World War, having been in five or the great offensives." The company has offered Mr. Fox an attractive contract for next season and he is considering continuing in the work which is difficult but has many pleasant features.

PLAN MEMORIAL GATEWAY

At a meeting of the Service Star Legion held yesterday afternoon at the Ayers National Bank building proposal was made for the building of memorial gates as a part of Victory Drive, for which the legion planned so effectively.

The suggestion was that the gates be placed at the Morton road entrance to the drive. Other matters of special interest were discussed at the meeting which was largely attended. Mrs. Frances Brown, president of the organization, presided.

Mrs. George Stevenson and children of Urbana are in the city to visit at the homes of Amos Henderson and Mr. and Mrs. C. L. Dawson. From Jacksonville they will go to Decatur at the home of H. J. Henderson.

D. SCHOOL YEAR BEGINS NEXT MONDAY

STUDENT IMPROVEMENTS MADE DURING SUMMER

of Faculty Members Announced By Managing Officer, C. Smith—Fifty-Three Instructors in Various Branches.

work of the year will be at the State School for the next Monday, Sept. 18. Col. Smith, managing officer of school, said yesterday that in point to a large attendance. T. V. Archer, recently appointed principal arrived in the several weeks ago and has outlined the work for the

Archer is an educator of experience and has been assisted with several of the best in schools for the deaf in the United States. Pupils and teachers will find that a number of improvements have been made at school during the summer. They will be particularly pleased with the great dining hall which has been entirely re-fitted. The ceiling has been painted in white and the walls light. The lighting fixtures are new and the dining room is only in every way attractive. Living screen doors have been added at each of the outside entrances. A study room at the side of the main building has been re-decorated. The old worn desks have been replaced with tables made in the new shop of the institution. Light fixtures in this room also new and the reading

room adjoining has also been re-decorated in a satisfactory way. The same class of work has been done in other rooms and a successful effort has been made to put the building in sanitary and attractive condition for the reception of the pupils.

Announcement was made early in the summer that military training and band instruction would be given. Mr. Fancher was engaged to direct this work but a change in plans was found necessary and this new department will not be undertaken until later in the year.

A new line of instruction will be given the girls of the school, Mrs. William Suhay having been engaged as teacher in Millinery classes.

MAKE PLANS FOR SHORT LINE TO MT. STERLING

Business Men of Four Counties Organize at Meredosia for Hard Road Work—Meeting Brought Farm Bureau Picnic to Successful Close.

As a fitting climax for the successful Farm Bureau picnic held at Meredosia Thursday business men of Morgan and Brown counties met and organized to foster a hard road from Jacksonville to Mount Sterling.

An official name was adopted for the proposed route, "Mount Sterling, Versailles, Meredosia, Chapin, Jacksonville, Short Line." The name is ominous but the route proposed is really short and plenty of argument in its favor can be presented to the state highway department.

The officers of the permanent organization chosen are: Chairman, W. E. Sullivan, Jacksonville; secretary, L. F. Berger, Meredosia; treasurer, T. E. Croxton, Mt. Sterling.

More than one hundred business men were present and there was no doubt about the interest of those men in the project.

In the preliminary organization Mayor Crabtree, of this city, presided and F. D. Cox of Mt. Sterling served as secretary. E. F. Crane told of the origin of the hard road idea with reference to Mt. Sterling and Jacksonville, and George Telling, Danville banker emphasized the value of co-operative action. Then came brief talks by L. V. Baldwin, Jacksonville; John Bell and Fred Six, Versailles; Dr. Allen, Chapin; L. F. Berger, Meredosia, and W. E. Sullivan, Jacksonville.

Subsequently a nominating committee was named and suggestions were made for the permanent officers. These officers are empowered to select one person from each of the five cities or towns mentioned and to constitute with the officers an executive committee. Then it will be the duty of this committee to outline the work for the organization and to arrange for subsequent meetings as needed.

There were short snappy talks by Charles S. Black, Jacksonville; W. H. Roegge, Meredosia; P. W. Brockman, Mt. Sterling; Marcus Hulett and Henry Frisch, Jacksonville; H. G. Keplinger, Waverly, and Dr. Hamman, Meredosia.

It was really one of the best good roads meetings ever held in Morgan county, and there is no question but that the organization formed will put forward an active campaign to bring to pass the desired improvement.

Farm Bureau Picnic. At the Farm Bureau picnic in the afternoon with Charles Black presiding, the following program was carried out: Invocation—Rev. J. R. Heidenbrink, pastor of St. John's Lutheran church. Address of Welcome—Rev. Guy Holmes, pastor M. E. church. Response—Mayor E. E. Crabtree, Jacksonville. Song—Meredosia male quartet, Louis Yeck, Harry Test, Harold Naylor and James Smith. Remarks—Judge H. P. Samuel.

Address—Joseph Fulkerson of Jerseyville. A program of athletic events was carried out later, the prizes in the various contests being awarded as indicated below:

Boys' Race—First, Jean Hedrick; second (tie), Odean New and Charles Floyd. Free for All for Boys—First, Virgil Steinberger; second, Audrey Hyde. Men's Free for All—Newton Floyd.

Swimming Race—First, James Barnett; second, Louis Curry. The evening program included a drill by 25 young women under the direction of H. C. Pond, a concert by the Perry band, and a picture show.

Dinner and supper by M. E. and Lutheran churches. The picnic was in every way a success showing the good management of the Farm Bureau and the Meredosia committee. Dinner and supper were served by the M. E. and Lutheran churches.

GEOLOGIST TO LOOK OVER LOCAL FIELD

University of Illinois Man Coming Today to Make Inspection—Oil Men Come Each Day.

A. P. Collinwood, a state geologist, is coming to Jacksonville today to make an inspection of the oil and gas field northeast of Jacksonville. Messrs. Rhodes & Moorehead recently sent for Mr. Collinwood as the services of the state experts are available for oil men. The larger producing oil companies have geologists constantly in their employ but they work along with the state geologists and any information relating to soil formation that the state may collect is available to all persons interested.

A pump was attached late yesterday afternoon to the Rhodes & Moorehead well on the Mahon farm and in a few days' time it will be possible to tell just what kind of a producer it is. For the present the oil pumped will be stored in tanks.

Mr. Irwin of Iola, Kan., has a drill at work on the Ocar farm. An old gas well there was cleaned out and the gas is being used for fuel purposes.

The Standard Oil Co. representative expected yesterday did not come, but will be here within a short time. Meanwhile each day brings visitors interested in oil prospects.

The Oil Journal and the Oil Derrick, both papers devoted to the oil industry, have had news reports of progress here and that fact is partially responsible for the influx of visitors.

ON VACATION.

George Stoldt, superintendent of the municipal light and water plant, is kept from his work by illness and is to take a rest of ten days or two weeks.

SHILOH CHURCH PLANS BURGEOO SOUP SUPPER

Extensive Plans Being Made For Event Next Tuesday Afternoon and Evening.

The members of Shiloh church northeast of the city will serve burgoo soup next Tuesday afternoon and evening, and preparations are being made to serve a large number of persons. Usually the people of Shiloh church give a chicken fry during the late summer, but this year they decided upon a burgoo supper instead.

The general arrangements are in charge of John Phillips and W. A. Shumaker, and they have the assistance of a large number of capable workers. The making of the soup will be in charge of Richard Leake.

The hamburger stand will be in charge of Mrs. Bess Phillips, Mrs. Verna Hull and Mrs. Bert Moody, while the soup will be served by Elmer Goveia, Leo Bourn and John Bourn.

Others who will serve in various ways are listed below: Collectors—Frank Dodswoth, Everett Long, Edgar Mills.

Water committees—John Bourn, Edgar Mills, Roy Gaines. Supper committee—Russell McGee, Eva Lee Hull, Mrs. Rea Moody.

Committee on preparation of tables etc.—Lee Bourn, J. R. Black, J. W. Black, C. T. Gaines, Cecil McGee, William Lindsay, Frank Dodswoth.

War's Greatest Hero Works as Carpenter

Sergeant Samuel Woodfill and Wife.

By NEA Service

Stevens, Ky.—Sergeant Samuel Woodfill, proclaimed by General Pershing as the greatest hero of the World War, is working here as a carpenter on the government dam in an effort to pay the mortgage on his home at Fort Thomas, Ky.

To do this, Woodfill was granted a three-months leave of absence from his army duties. He expects to use the entire proceeds of his labor to lift the mortgage.

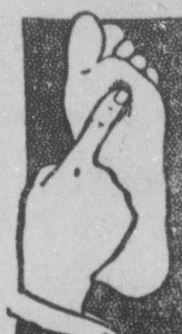

He is getting \$6 a day.

Application has been made by Lieutenant Colonel Fred G. Turner, of Ft. Thomas, for the promotion of Woodfill to the rank of officer. This would enable him to retire on \$160 a month. The rank is just below the commissioned personnel.

Another application for promotion of Woodfill to a captaincy for retirement was introduced in Congress, but it has been side-tracked.

FAREWELL PARTY FOR MANCHESTER PASTOR

Rev. Olin Lee and Wife Soon to Leave for Bloomington, Ill.—Other Manchester Items.

MANCHESTER, Sept. 14.—The members of the Methodist church gave a farewell reception Thursday evening for their pastor, Rev. Olin Lee and wife, who are soon to leave for Bloomington. The reception was given at the home of G. D. Barnes and was attended by a large number of the members of the church and congregation. A pleasant social evening was enjoyed and refreshments of ice cream and cake were served.

The many friends of Mr. and Mrs. Lee are sorry to see them leave the community, but wish them success and happiness in their new location. Rev. Mr. Lee will fill the pastorates at the Forest City and Kilbourn churches and will also study during the coming year.

News Notes
Mrs. M. S. Howard spent Wednesday with her daughter, Mrs. Harry Craig, near Woodson.

Mrs. J. C. Andras Jr. spent Tuesday in Jacksonville on business.

- The weather has been too uncomfortable to stand for suit fittings. But,
- You know that in the very nature of things such a condition cannot exist long. Then,
- What are you going to do about that cooler weather suit?
- Better come in and stand for a little discomfort now to insure the needed comfort later on. After all, we don't require your presence very often—your measure, then one fitting usually finishes the work.
- The new imported and domestic woollens, more lovely than any ever shown, are ready for your inspection.
- How about it?

BUCKET BRIGADE

SAVED MANY HOMES
CONSTANTINOPLE—A bucket brigade of 200 Armenian orphan boys from the industrial school recently saved thousands of Turkish homes at Beylerbey, on the thickly-populated Asiatic shore of Bosphorus, from destruction by fire.

The fire started in a locality made up of tenements and at one time was most threatening. There was no firefighting apparatus available, so Mrs. A. A. Burt, of Los Angeles, the headmistress of the school, sent two hundred of the oldest boys to the scene of the fire with buckets. They organized a quadruple line from the waterfront to the fire and succeeded in confining the flames to a group of 12 tenements. About 100 Turkish families were rendered homeless.

Doctor Esther Lovejoy, of Portland, Ore., head of the American Women's hospitals, who happened to be visiting the school at the time, assisted in directing the boy firefighters.

ILLINOIS PROFESSOR MAY GO TO PERSIA

Urbana, Ill.—Prof. E. L. Bogart, head of the department of economics in the University of Illinois has received an invitation to go to Persia as an economic expert and will probably leave the University for a period of one year to carry on the work.

Dr. A. C. Millspaugh has been appointed administrator general of finances of Persia and has asked Prof. Bogart to accompany him. Financial affairs there are said to be seriously upset, and according to information which has been given to Prof. Bogart, the work will be chiefly that of establishing a national bank, refunding the national debt and making a reform of the currency. Prof. Bogart was economic assistant in the Central Powers' foreign trade adviser's office at Washington, during the World war. While in Washington he wrote a pamphlet estimating the cost of the war.

NOTICE TO PROPERTY OWNERS

All lots and parcels of lots abutting on West College avenue that are not connected with sewer, water and gas must make the connections within one week. An ordinance of the city specifies that the pavement cannot be broken for a period of ten years for these improvements, so they must be made now. Property owners not now connected will govern themselves accordingly as no exceptions will be made.

SPECIAL TRAIN

FOR ROCKFORD
Chicago.—Special railroad cars will leave here the morning of September 28 to carry delegates to Rockford, to attend the dedication of the new state home there, according to Mrs. Elmer R. Redman of this city, worthy grand matron of Illinois. The reported cost of construction of the home was \$100,000. Mrs. Redman is arranging the program of the afternoon.

Mrs. Redman added that thirty-five residents of the present home at Macomb would be removed to the new buildings at Rockford, September 18, and that nurses, cooks and other attendants would go to Rockford at the same time.

WHY THEY PARTED.

"I was down with pain in my right side which at times almost crazed me. Most all of the doctors said operation. But what I want to tell you is the pain disappeared with the first dose of your medicine and I never see any since. Mayr's Wonderful Remedy has the right name—gas, sour stomach and dyspepsia have left too." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by all druggists.—Adv.

NATURE LOVES BRIGHT

COLORS.

We see the truth of this statement in the varicolored flowers, the vivid sunsets, the birds of brilliant plumage. But we never see it exemplified more attractively than in the person of a splendidly healthy woman. How does nature paint this health? Why, in the rosy cheeks, the transparent skin, the smooth red lips of such a woman. And she molds it in firm feet and rounded contours. The alluring woman is deficient in natural coloring, and she does not even appear to advantage in clothes that would set off her more attractive sister. Many women who long for glowing health will find that they, too, can have those charms if they will give a trial to that remedy which brings strength to frail women.—Lydia E. NEWS OF THE SPORT WORLD

ACH HARMON HAS CALLED FOOTBALL MEN

ets to Start Practice Next Monday—Some Good Prospects among New Material.

Ach Harmon director of athletics of Illinois College has issued a call to candidates for the football team for Monday noon. The first few days he has been given to looking over the material and lining up the men. Strenuous work will begin the following week.

Illinois lost some of her best last spring by graduation, but they are being replaced by a new crop of the team. It will be impossible to get a man to take his place, but the coach is taking time to develop a man for the position from the new material or may shift a veteran to the position.

Old men who will be back are: Wittenberg, Witaschek and Dale; Reid, Reiss, Ribelin; and Schang, c; Weber, Gard, r; n; c; and Roberts, center. This is the same line Harmon was used last fall when he defeated Oka and Monmouth. In the field the veterans are: Rogers, J. Roberts and Jones.

While Coach Harmon has no new material and will know what he has until the report, there are some like-looking men to enter school fall.

From Jacksonville, high school boys are: Art and C. Hopper from back field. Goebel at end and several others, among them a man who played in the line the Jacksonville high school's team. Johnson has taken weight this summer and tips beam at 190 pounds. Art and C. Hopper have been working on hard construction during the summer.

Harmon has also taken on weight. He has 180 pounds. Charley Hopper has been working during the summer at Nichols park and also in fine shape for the fall. In addition to the local talent, men are coming from Greenville, among them Witt the center who is also a football player. Three football men from Jacksonville, three from Greenville, two from Pittsfield, two from Versailles, two from Carlton and two from Palmyra.

are football men and most of them won high school letters in football and track.

With this aggregation of talent, the members of last year's team and third Illinois teams, prospects look mighty good for the fall.

Ach Harmon has the same problem that confronts many coaches a year, that of developing a team. However, he has time to do this many times before the season will be able to do it again.

Illinois field is in fine shape, a good rain would improve it. In a week there will be about a dozen candidates romping after pigskin and fighting for place on the Blue and White team.

JOE BUSH IN FORM BEATS WHITE SOX

Holds Sox to Four Hits and One Run—Ruth Hits His Thirty-Second Homer.

CHICAGO, Sept. 14.—Joe Bush of the Yankees was in fine form today and defeated Chicago 4 to 1, thereby registering his twenty-fourth victory of the season. In only one inning was Chicago able to get more than one hit. That was the fifth when doubles by Mostil and Falk resulted in a run and prevented a shut out. The locals were able to gather only four hits off Bush. Leverage pitched a good game also. Ruth drove the ball into the left field bleachers for a homer in the fourth inning, his thirty-second of the season. Meusel led the attack for the league leaders with three hits. The score:

GIANTS WIN THEIR SIXTH STRAIGHT GAME

Defeats Cubs by Score of 7 to 6—Cubs Make 15 Hits and Giants Seven.

NEW YORK, Sept. 14.—The New York Giants won their sixth straight game today defeating Chicago in a battle of pitchers, 7-6. Nine boxmen were used in the game five by the world's champions. Ryan did the best twirling for New York, striking out five men in the three innings. He was taken out in the fifth for a pinch hitter, Stih, who came thru with a single, with the bases full driving across New York's last two runs.

V. Barnes, Scott Jonnard had a hard time holding this advantage. Score:

FILIPINO PUT KOYO ON JOHNNY BUFF

BROOKLYN, N. Y., Sept. 14.—Pancho Villa of Manila, tonight became the fly weight champion of the United States by scoring a technical knockout over Johnny Buff of Jersey City, twenty seven seconds after the opening of the 11th round of a scheduled 12-round bout.

Buff's seconds threw a towel into the ring when Johnny, battered to grogginess, stood helplessly before the Filipino's attack. In the tenth round Villa scored two knockdowns. He began by pummeling Buff with both hands, rushing him to the ropes and then chasing him across the ring. Buff was reeling when Villa landed his left to the head and sent the American bumping to the floor.

Worthy Successor to Ty Cobb

GEORGE SISLER

By Billy Evans
George Sisler of the St. Louis Browns is certain to be selected as the most valuable ball player in the American League for the season of 1922.

Ty Cobb generally has been considered the greatest ball player that ever lived. Cobb is nearing the end of his remarkable career.

George Sisler stands out as a worthy successor to Cobb's crown. When the commission of experts, selected to judge the American League's most valuable player, meets, Sisler is practically certain to be the unanimous choice of the all-wise jury.

Great as Twirler
Sisler came to the American League direct from the University of Michigan.

He made his debut as a pitcher. He is a southpaw inside of a year he was rated among the best left-handed pitchers in the American League. Had he continued to pitch, he would today be the sensation of the American League from a twirling standpoint.

His hitting ability, plus his great, made of seem that much of his talent was being wasted in merely using him as a pitcher. The St. Louis club finally decided that he would be much more valuable playing regularly, rather than pitching every fourth day.

Sisler, because of his great speed, was first used in the outfield. He met with fair success and seemed destined to develop into a great fielder. Then it was decided to use him at first. It took only a few days for him to demonstrate that first basing was his forte.

On First Base
Until Sisler reached the top of his game, Hal Chase was generally regarded as the greatest first baseman of all time. Now that great honor has been transferred to Sisler. Only recently Connie Mack, who has no superior as a judge of players, told me that Sisler was by far the greatest first baseman he had ever seen.

Th star of the St. Louis club started the season at a whirlwind clip. He hit better than .400 for the first month of play. No one figured he could keep up the terrific pace but he has. From start to finish he has maintained a gain that has killed off all contenders, with the exception of the great Cobb.

Wonder in the Field
Aside from his remarkable hitting he has played a wonderful game in the field. The St. Louis infielders never worry about their throws, if they are able to get them within striking distance of the bag. Sisler goes into the arid digs them out of the ground, or sears them with his gloved hand with equal ease.

On the bases, in a year in which base running has been a negative quantity, Sisler has had a big season.

In batting in runs with timely hits, and scoring them himself, he has played a big part in the success of the Browns.

Sisler during the season of 1922 has featured in every department of play. He is easily the outstanding figure of the American League in a season of unusual happenings.

ST. LOUIS GIRL IN SEMI-FINALS

ST. LOUIS, Mo., Sept. 14.—Upsets, some wonderful golf and an accident featured the third round matches of the Western Women's championship played today in which Mrs. Dave Gaunt, Memphis; Miss Frances Hadfield, Milwaukee; Mrs. Curtis Sohl, Columbus, and Miss Virginia Pepp, St. Louis, were returned the winners. Mrs. Gaunt played brilliant golf in defeating Mrs. Melvin Jones, Chicago, present champion 4 and 3, while Mrs. Hadfield put up a great fight after being dormie two to eliminate Miss Myriam Burns, Kansas City, 1 up in 20, with Mrs. Sohl flashed a 4 and 3 victory over Mrs. E. E. Harwood, Chicago.

An unfortunate incident of the day gave Miss Pepp a forfeit match over Mrs. Lee V. Mida of Chicago when the Illinois woman sprained her ankle just after making a beautiful drive going to Number 14.

Tomorrow's pairings, (championships, Mrs. Dave Gaunt, Memphis, vs. Miss Frances Hadfield, Milwaukee, Miss Virginia Pepp, St. Louis, vs. Mrs. Curtis Sohl, Columbus.

BABE ADAMS BLANKS BOSTON BRAVES 8 TO 0

Boston, Sept. 14.—Babe Adams held Boston to five hits today. Pittsburgh winning 8 to 0. Miller was knocked out of the box in the sixth when he forced in two runs with passes and Russell then cleared the bases with a double. Pittsburgh—011 105 000—8 9 1
Boston—000 000 000—0 5 2

BROWNS TAKE GAME FROM RED SOX 5 TO 3

Come From Behind to Win Game—Lineup is Rearranged Again.

ST. LOUIS, Sept. 14.—St. Louis came from behind for the third time in the last four games and defeated Boston 5 to 3 in the second game of the series today. The victory however does not advance the locals any closer to the league lead as New York defeated Chicago and as a result the Browns remain a game and a half behind.

The pennant chasers lineup was rearranged again today as a result of the absence of George Sisler who is on the sick list with an injured shoulder. Catcher Pat Collins went to first. Foster returned to third and McManus to second. Sisler while resting easy still is declared to be in no condition to play ball for six or seven days.

Dixie Davis was removed after passes he issued in the first and third resulted in runs.

Pat Collins got three hits out of four trips to the plate and handled fourteen chances without errors.

Burns slammed another homer in the third inning today with a man on base.

BIG TEN TEAMS GET UNDER WAY TODAY

CHICAGO, Sept. 14.—Mobilization of the armies of candidates for Western Conference Football eleven will get underway tomorrow the date set for the official opening of the practice season. Reports from all "big ten camps" tonight indicate that large squads will respond for the first workout which will be devoted to the rudiments of the game tossing the oval about and general limbering up exercises.

After three weeks of practice, all conference teams will swing into action on October 7 with the exception of Illinois, which will not start the season until a week later. The first games will be against non-conference teams, Chicago meeting the University of Georgia here in the most important contest of the opening schedule.

Howard Jones, coach of the championship Iowa team, faces a hard task preparing his charges for the interconference clash with his brother's team at Yale October 14. With such stars as the Davine brothers, Slater and Belding, missing, Coach Jones must develop new material to fill the gaps.

From fifty to seventy five candidates are expected to turn out at Michigan, Chicago, Illinois, Iowa, Purdue, Indiana, Ohio, Minnesota, Wisconsin and Northwestern.

MANY RAILROAD SHARES SHOW GAINS

By Associated Press.
NEW YORK, Sept. 14.—Extensive investment buying of high grade railroad shares many of which showed gains of one to three points, was the outstanding development in today's stock market session.
Despite Wall Street's professed indifference to labor disturbances the strength of these issues was generally ascribed to the reaching of a partial strike settlement between striking shopmen and in-

dividual railroads. Opening prices were generally firm, but a reaction set in especially in the industrial group following a sharp break in United States Rubber preferred which dropped nearly 11 points before buying support set in. The subsequent rapid recovery wiped out two thirds of the loss. Liquidation of 4,000 shares by small insurance companies accelerated the reaction which unsettled the entire list.
Buying Atchison by outside interests turned the course of the market upward again, this stock touching 108 1/2, a new high price for the year.

New highs for the year also were made by Pennsylvania at 48, New Orleans, Texas and Mexico at 77 and Rock Island at fifty. Union Pacific, Southern Pacific, Canadian Pacific and New York Central also marked progress.
United States Steel common gained nearly a point on announcement of an increase of \$3 a ton in the price of rails. Columbia Gas & Electric with a gain of five points to a new high, led the advance in public utilities. Tobacco shares were weak. American Car and equipment's held firm at recent levels.

Total sales were approximately 1,100,000 shares.
Withdrawal of \$46,500,000 for government accounts from local banks caused a moderate flurry in money rates. Call loans opened at 4, rose to 4 1/2 at midday and to 5 in the latter part of the session where they held to the close. Time funds were unchanged from recent quotations and Mercantile Paper was bought by local and interior banks at prevailing rates.
A firmer tone prevailed in foreign exchange rates, offerings of grain and cotton bills against export shipments being materially reduced.

Confused price movements took place in today's bond market. Local railroad and a number of railroad mortgages moving into higher ground while Mexican government and French government and municipal bonds showed substantial recessions. Liberties fell back considerably at the start but regained part of their losses.

WINCHESTER WOMAN'S CLUB PLANS MEETING

First Meeting of Assembly of Woman's Club to Be Held Monday Afternoon—Other Winchester News Items of Interest.

Winchester, Sept. 14.—The Winchester Woman's club has issued the programs for the year just beginning. The first meeting of the assembly will be held at the Methodist church Monday afternoon at 2:30 o'clock and a very interesting program will be presented at that time.

Mr. and Mrs. Delores Armstrong are in Winchester for a short time. Mr. Armstrong recently sold his garage and is expecting to locate in St. Louis at no distant date. He will have a good position there as traveling salesman.

Dollar day was quite a success for Winchester merchants. A large crowd was in town, all parts of the county being well represented.

Miss Vera Wardner has arrived from her home in Chicago and will resume her work as teacher of French in the community high school.

Mrs. Earl Miner and sons, Edward and Stewart, arrived Tuesday from Plainfield, Tex. The boys will enter school here for the winter.

A demonstration was given recently at the Baptist church by Miss Adele Adams of St. Louis for members of the Household Domestic Science club. The ladies very much enjoyed the afternoon program.

Misses Bertha and Helen Miner and their nephew, James Miner, enjoyed a motor trip the past few days and while away visited the Keokuk dam.

Coal Users

After 5 months shut down the miners have again started to work. Coal is higher at the mines—higher than we expected. We would not advise filling bins at present, as we look for cheaper coal.

We are offering our celebrated Diamond Chunk Coal, best coal mined in the Springfield district, at \$7.50 per ton, delivered.

Franklin and Jackson county, the best Southern Illinois coal mined, at \$8.50. Our terms are the same as have been for over thirty years in the coal business in Jacksonville.

MANY BABIES WILL BE AT STATE FAIR

Over 600 Applications For Better Babies Conference Already Received—Has Had Wonderful Growth.

Springfield, Ill.—(By The Associated Press)—There have been over 600 applications for the Better Babies Conference to be held at the Illinois State Fair here this year. At the first conference in 1915 there were only 250 babies entered, most of them from Sangamon county. Last year 1,165 babies from 34 counties were entered, according to Dr. Isaac D. Rawlings, director of the State Department of Labor which has charge of the conference.

"The Better Babies Conference has had a wonderful growth," said Dr. Rawlings. "The baby held sway at the recent Chicago Pageant of Progress where thousands were thoroughly examined. Conferences will be held at several county fairs this year, and at several farmers' picnics. Governor Small has taken a personal interest in the furtherance of this great work and has provided a silver loving cup as a prize for the highest scoring baby at each of the following county fairs: De Witt, Hancock, Franklin, Kankakee, Randolph, Macoupin and Greene. In addition, at many of the county fairs, the mother of the highest scoring baby will be awarded a free trip to the Illinois State Fair where prize-winning babies will compete for the grand elimination prize of \$100.

"Three hundred of the entrants at this year's conference are listed

For the middle-aged or elderly person who requires one pair of glasses for reading and another pair for out-of-doors use, we recommend our Invisible, Revelation and Cement Bifocals or double vision glasses.

If You Need Double Vision Glasses

everything depends upon their being fitted properly, both for close and distant vision. We are invariably successful with Bifocal fittings.

in the Improvement Class where eight children under six years of age showing the greatest improvement over the scores obtained last year will be awarded Savings Bank accounts ranging from \$2 to \$15. Fond mothers and fathers, and doting grandparents cannot disguise themselves at this event. They are as easily discovered as a bride and groom at a wedding party, and they are proud of it. Even the general public experiences a thrill when it views the numerous specimens of perfect babyhood."

SWIMMING POOL NEAR COMPLETION

Concrete Work Will Be Finished This Week—Bath House to be Constructed.

The swimming pool, which has been under construction at Nichols Park, is nearing completion. The concrete work will be completed by the week end.

A children's pool is to be constructed along side of the adult pool. The children's pool will not be so large as the general swimming pool and not be more than thirty inches deep at the deepest place.

In connection with the pools a modern bath house will be constructed which will have two apartments, one for men and one for women. The bath house will contain storage room for bathing suits and an office room.

The main swimming pool will have two spring boards for the accommodation of those who wish to dive. When completed Nichols Park will have one of the best swimming pools in Central Illinois. It will be under the management of the Park board and will be kept sanitary by chemically purifying the water and draining and scrubbing the walls of the basin.

SALVATION ARMY APPEALS FOR CLOTHING

The local Salvation Army is making an appeal for cast off clothing. Last year the Army did relief work in the city estimated at a value of \$1,100. Much of this was in the form of clothing as well as food and other necessities.

The Salvation Army was able to do this largely thru the generosity of the people of Jacksonville. Donations of clothing will also be accepted from other towns of Morgan county. Clothing for men, women and children is wanted. Those who have clothing they are about to discard or do not need should get in touch with the Salvation Army.

OFFICIAL BOARD MEETING TONIGHT

There will be a meeting of the official board of the Brooklyn church held at the church this, Friday, evening at 7:30 o'clock. The purpose of the meeting will be to outline policies and plans of the present year. This is an important meeting and it is hoped that a full attendance of the official board will be present. Refreshments will be served by the Ladies Aid.

MINE MULE IS DISAPPEARING

Electrical Power Takes Place of Faithful Mule—Only One Used Now For Hauling Power.

West Frankfort, Ill.—(By The Associated Press)—The mine mule, whose history dates back to the days of early coal mining in southern Illinois, gradually is disappearing just as is Old Dobbin, the once faithful familiar dray horse. With the gradual disappearance of the faithful "hard tail," old miners are preserving for posterity of pathos and sympathy for the once essential draft animal of the mining industry.

Stories picturing the mule going blind by constantly being kept under ground and picturing the colt born far below the surface are discounted by the more truth-loving miners as fairy tales and by the mine operators as stories whose design is to lend a touch of romance to the early history of coal mining.

The modern mine finds use for only one mule, that for the distribution of powder after the miners have been hoisted to the surface. This mule is lowered to the bottom of the shaft, but brought back up after completing its work and is cared for in a stable above ground. Electrical power is used almost exclusively for hauling coal carts under ground.

In mines where the mule still is used extensively the animals are brought to the surface frequently. In rare instances, it is said, are the mules kept in the pits for any length of time. When work in the mines is suspended, it is a general custom to bring the animals to the surface where they are kept in pastures until the mines resume operation.

The only animals known to breed in the shafts and pits are rats and mice. These little rodents, however, are often made pets of the miners for the reason that their presence indicates absence of gas pockets. As long as the mouse or rat slips about a certain place, the miner is certain to be free of the gas danger.

STATE ROAD IS BEING OILED

Travelers to the State Fair who take the old state road will find the Sangamon portion of the road in fine shape. Sangamon county has treated the state road to a coat of oil and that portion is practically dustless. The portion of the road from Jacksonville to the Sangamon county line is not so good. A portion of it has, however, been oiled. That which has not been oiled is very dusty.

Both Quality and Price Are Combined in These Special Mattresses

Cheap cotton and combination mattresses don't pay. They settle down, sag and become lumpy and uncomfortable. This mattress is of cotton felt, in layers, it cannot lump and an occasional sun bath keeps it soft and comfortable. It is the same quality that you are asked \$15 for today. Price \$11.50

We are making a special offer on only six of these layer felt mattresses at a saving to you of over \$3. Remember there are only six to sell. See them early and compare with regular \$15 goods. You get a good mattress at the price of a cheap one. Cotton is advancing in price and mattresses are also.
